

Meet Us at India Expo Center

Excited to be a part of India's International Water Resources Event, the 7th Edition of India Water Week 2022.

Stop by **Hall 6 & booth No. S15** to learn how SATPALDA's Geospatial data and services provide solutions in water resources at worldwide scales in record timelines.

“Water is central to the well-being of people and the planet”

What not to miss?

- Most exciting Water Resource event of the year
- A presentation by our expert on “Geospatial Data and Services in Water Resource”
- Our latest products and services for water resource management across the globe

Our services in water resources

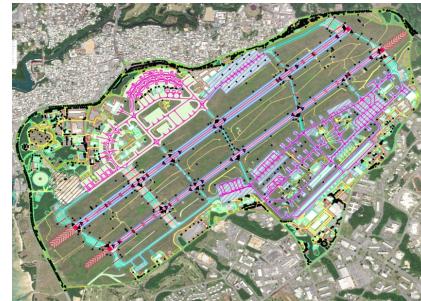

To address nearly all facets of water resource management, we have competence in geographic data storage and management, hydrologic management, modeling of groundwater, quality analysis of water, and water supply management.

- Engineering Support Services
- Drought Monitoring
- Flood Modelling
- Agriculture & Irrigation
- Hydrological Modelling
- Drinking & Wastewater Mapping

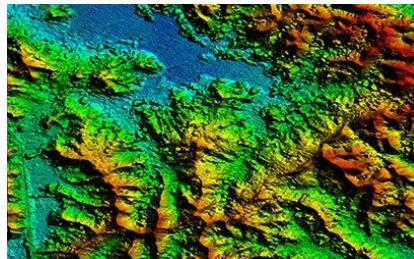

The USP of SATPALDA's services is the unique blend of technical knowledge and cost-effective quality solutions delivered on time.
